History

This house you're sitting in is an important piece of a long and exciting history about Kvie Sø.

A summer day in the first 1930's some folks came cycling from Grindsted to Kvie Sø. To get to the lake they had to cycle past the farm "Søknuden" and further down a field road. The former owner of "Søknuden", farmer Niels Peter Larsen, saw an opportunity to make money and he sended a message to the bakery in Ansager for some baked goods and refreshments.

After their visit the number of bathing guests went up. In 1932 Niels Peter Larsen constructed a pavilion so that the bathing guests had a place to sit and enjoy their food and drinks. A house was build and the pavilion was further extended. Niels Peter Larsen could know advertise with a first class bathing place.

In the 1960's Kvie Sø had their glory days. Folks came from near and far to visit the pearl of the moors of Jutland. In 1965 Kvie Sø takes the front page of "Ude og Hjemme" and a 4 page reportage that describes the place as the Jutlandic Riviera in the middle of the moors. Thousands of bathing guests came to the lake every day for the whole summer.

In 1995 we came with our 4 children as well as our fifth on the way from the Netherlands to Denmark. We had a dream to run a little farm and find a place like this. In 2004 we had the opportunity to take over the place and convert the restaurant to a pancake house specializing in traditional Dutch Pancakes and Belgium specialty beers.

We will do our very best so that you can have the best imaginal experience. Welcome to Pandekagehuset!

Enjoy,
Henk & Herreen

When we are busy. we remain the right to only accept one payment per group.

Our values

Great experiences for both you and us is what we value the most and what we continuously want to achieve. We will always put a lot of effort into everything we do in order to create the atmosphere and experience that we want for our guests.

We want you to feel welcome in our informal and accommodating surroundings, where a relaxed atmosphere and cohesion with your fellows should be easy to obtain. We want all of our guests to leave with a feeling of having had a special experience.

In spite of all our effort, you might have another experience or other expectations, if so we would very much like you to tell us. It is our only chance to change things – if you leave us without informing us, we are not able to change it. If problems occur, we believe they are easier to solve in the moment.

A sense of good humor and an eye for good service is what we look for when choosing our staff. They might not always know the answers to all unique questions to wine and food, but they are always ready to find the answers or to find someone who has the knowledge asked for.

In our house, all functions of work are equally important. All members of our staff are highly respected for the specific jobs they do. We believe that working together provides the best service to our guests.

Because we want to reduce food waste, we support the ReFood movement.

We are lucky to live right in the middle of the most beautiful nature. Kvie Sø is a protected area, and has been it since 1947 and is very unique both as far as rare species of animals, birds and plants. We do what we can to protect this vulnerable area and we hope you will help us do the same.

We will do our very best to give you a nice time here, welcome to Kvie Sø.

We are only a small company, and we always wish to give all of our guests the best experience. So instead of writing a bad review, we would much rather talk to you in person. Thereby we are able to correct the mistake right away, if there should be something you are unsatisfied with. - Thank you very much!

- Henk and Herreen
